

Student Dress Standards:

Capistrano Unified School District strives to promote the safety and welfare of its students. The Board of Trustees has adopted student dress and grooming standards. They require students to wear clothing that does not compromise their safety or modesty and that does not disrupt the learning environment. A description of these standards is given to all students and parents during registration. While individual expression is important, it cannot displace health and safety issues. The District standards prohibit the wearing of gang-related clothing as identified by law enforcement agencies. Each school will inform parents at the beginning of each school year about additional specific standards adopted by the school.
